

## TESTGRID SERVICES

### Consulting and Project delivery

Service	Description
Project Management:	Client and candidate set up and support.
Product Selection:	Assistance in product selection and solution pack design.
Report Interpretation (Ψ):	Accreditation is required for many behaviourally based assessments. TestGrid provides access to accredited consultants to provide debriefs for assessments which require accreditation.
Platform Integration:	TG is integrated with many e-recruitment systems and depending on the product you choose and the ATS provider you use, there may be no TG cost involved for making TG products available through your ATS.
Best Practice Consultation	TG's Organisational Psychologists are continually updated with the latest research initiatives and scientific literature concerned with best practices. TG can provide support to clients to assist with the development of a best practice framework.
Annual Subscription
